

FPP CAMP FRIENDSHIP

Week 2 - June 15-18

THE GREAT ROUNDAABOUT

**FOAM
PARTY
Thursday**

Rolling, bouncing, bubbling fun!

From **balls and bubbles to wheels, planets**, and round shapes in nature and architecture, campers will investigate all things circular and spherical. Expect lots of motion, building, experimenting, and playful discovery as kids explore how round objects shape our world.

Little Leonardos - Stop Motion Week

Campers will **roll, spin, and bounce** round objects to create their very own stop-motion movie. By building paths and moving balls, bubbles, and wheels one tiny step at a time, children discover how circular motion works. This playful project blends science, art, and storytelling into a magical movie-making experience.

Camp 9am- 1pm - Little Leo's 1pm-3pm
